

TO WHOM IT MAY CONCERN

Dear Sir/Madam,

we take pleasure to inform you, that our company, Energobit of Romania, has appointed INPEC Engineering GmbH, Schönleinstr. 56 in 45131 Essen, Germany, represented by Mr. Teodor Garabet, based on a contractual agreement to represent our interests **in Germany as an representative consultant and agent.**

In this capacity Mr. Garabet and his team are authorized to contact you, to collect, relay and return all technical, commercial, financial, legal and administrative information pertinent to our products such as

- Prefabricated transformer substation (medium voltage/low voltage) in concrete case
- Medium voltage panels for primary distribution
- Medium voltage panels for secondary distribution
- Low voltage distribution panels
- Protection panels and automation panels

and maintain the communication with our office.

INPEC Engineering GmbH is managed by a highly professional team in Essen with an experience of more than 25 years in different countries for industry and energy.

We are convinced that the involvement of INPEC Engineering GmbH will be to the benefit of all parties.

We thank you in advance for your acceptance.

Romania – 21th December. 2023
